Tourist tax

It is collected by all accommodation providers in the Cœur de Petite Camargue area, including hotels, furnished accommodation, holiday villages, campsites, bed and breakfasts and marinas.

It is calculated according to the rating of the accommodation, the number of days and the number of people staying there. Exemptions are given for visitors under 18s, for example.

Accommodation providers are required to display the tourist tax rates and exemptions. It is also mandatory for them to collect the tax from clients. The proceeds help to fund tourism development in our five municipal areas.

For more information, please contact the Tourism Office.

Accommodation guide 2025

The information is checked and reliable, but mistakes can always occur as well as last-minute changes. The Tourist Office can never be held responsible in this case.
